

Nordic Steel Construction Conference 2019

18-20 September 2019 in Copenhagen

The Nordic Steel Construction Conference is a conference with 50 years of proud traditions. The conference series started in Stockholm in 1970. Since then, the conference has circulated between the four Nordic countries and held every three to four years joining academia and practitioners. The previous conference held in Finland in 2015 gathered Nordic as well as European and international scientists, representatives of steel manufacturers, steel wholesalers, contractors, consultants, architects, etc. It was and will yet again be a great success.

NORDIC

STEEL

2019

Venue

The conference will take place at
Scandic Copenhagen Hotel
Vester Søgade 6
Copenhagen

Call for abstracts

Those wishing to participate in the conference are invited to submit short 150-300 word abstracts for papers relating to the general topics of the conference. Please choose one of the main topics. To submit abstracts use the link at the website.

The conference language is English. Therefore, presentations, abstracts and papers must be in English.

The abstract should clearly indicate the content and important contributions of the paper.

When your abstract has been approved, you must prepare a paper and after final approval, we will look forward to hearing your presentation at the conference.

Abstracts and papers will be peer-reviewed by the Scientific Committee.

NORDIC

STEEL

2019

Topics

1. Bridge Structures
2. Building Structures
3. Cold-Formed Structures
4. Composite Steel Structures
5. Connections & Joints
6. Design & Case Studies
7. Earthquake Engineering
8. Eurocode & Codification
9. Fabrication & Construction
10. Fatigue & Fracture
11. Fire Engineering
12. High Strength Steels
13. Hot Dip Galvanizing Steel Connections
14. Innovative Components
15. Innovative Structures
16. Masts & Towers
17. Modelling of Steel Structures
18. Offshore Structures
19. Retrofitting & Refurbishment
20. Robustness of Structures
21. Stability of Structures
22. Stainless Steels
23. Structural Steels
24. Sustainable Structures

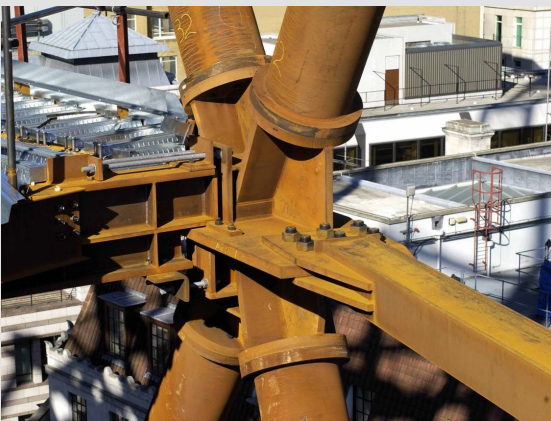

Important Dates

- 01.10.2018 Abstract submission
- 21.01.2019 Paper submission
- 03.06.2019 Deadline registration fee of presenters
- 18.09.2019 Conference opening

International Scientific Committee

Prof. Ahmed Y. Elghazouli, United Kingdom
Prof. Ahmer Wadee, United Kingdom
Prof. Aleksander Kozlowski, Poland
Prof. Andreas Taras, Germany
Prof. Arne Aalberg, Norway
Prof. Aurel Stratan, Romania
Prof. Carlos Rebelo, Portugal
Prof. Cem Topkaya, Turkey
Prof. Dan Dubina, Romania
Prof. David Nethercot, United Kingdom
Prof. Dennis Lam, United Kingdom
Dr. Filippo Berto, Norway
Prof. Frantisek Wald, Czech Republic
Prof. Harald Unterweger, Austria
Director Henrik Polk, Denmark
Prof. H. H. Snijder, The Netherlands
Prof. Ian Burgess, United Kingdom
Prof. Ivan Balaz, Slovakia
Dr. Jakob Laigaard Jensen, Denmark
Prof. Jari Puttonen, Finland
Prof. Jean-Francois Démonceau, Belgium
Dr. Jens Christian Kærn, Denmark
Prof. Jeppe Jönsson, Denmark

Prof. John Buick Davison, United Kingdom
Assoc. Prof. John Leander, Sweden
Dr. Jurgen Becque, United Kingdom
Prof. Kim Rasmussen, Australia
Prof. Kristo Mela, Finland
Prof. Leroy Gardner, United Kingdom
Prof. Luis Calado, Portugal
Prof. Luis Simoes da Silva, Portugal
Assoc. Prof. Luisa Giuliani, Denmark
Prof. Markus Feldmann, Germany
Prof. Markus Knobloch, Germany
Assoc. Prof. Michael Joachim Andreassen, Denmark
Prof. Mikko Malaska, Finland
Prof. Milan Vejlkovic, Holland
Dr. Nicolas Neumann, Norway
Prof. Ove Lagerqvist, Sweden
Prof. Paulo Vila Real, Portugal
Prof. Raffaele Landolfo, Italy
Prof. Riccardo Zandonini, Italy
Prof. Sandor Adany, Hungary
Dr. Thomas Hansen, Denmark
Prof. Timo Björk, Finland
Prof. Torsten Höglund, Sweden
Director Ulrik Støttrup-Andersen, Denmark

Organizing Committee

Professor Jeppe Jönsson, DTU (Chairman)
Associate Professor Michael Joachim Andreassen,
DTU (Co-Chairman)
Director Jørn Nielsen, DSI (Secretary)
President Ulrik Støttrup-Andersen, DSI

See You at the Nordic Steel 2019 Conference

This international Nordic construction conference on steel offers an important platform to present and discuss a wide range of topics related to a great variety of research, design and construction activities. Please have a look on the list of topics we expect to discuss. With participants from all over the world in the previous conferences, the Nordic Steel construction conference is an important event for both Nordic and international steel researchers, PhD-students, engineers and designers, attracting international delegates from all over the world. Young researchers are also especially welcome and encouraged to present their new ideas and research.

The Nordic Steel 2019 conference will present high quality papers at the forefront of steel research and give all participants a great opportunity to gain state-of-the-art knowledge as well as the possibility of sharing and discussing ideas and developments with steel experts. The conference proceedings disseminate the papers with the extensive knowledge presented during the conference. Based on reviews of the scientific committee we will select the best papers. We will treat delegates with Nordic traditions.

Networking is important as well as renewing old acquaintances. Nordic Steel 2019 offers a multitude of possibilities and opportunities to network. A great way would be to stroll through the Tivoli gardens for a drink or a dinner together with colleagues from around the world.

We hope you will take the opportunity to come to beautiful Copenhagen in September 2019 and join us in making this event a memorable one.

On behalf of the organizing committee, we welcome you to Copenhagen.
